

# CARBON FOOTPRINT CERTIFICATE

January – December – 2024

## Kaufland Romania S.C.S.

Strong relationships rely on cooperation, shared goals and beliefs. By choosing for reusable trays from Euro Pool System you contribute to the further transitioning to a more circular economy and to the building of a more collaborative and sustainable supply chain.

Euro Pool System's goal is to mitigate its impact on the environment by monitoring and reducing the greenhouse gases emissions resulting from our company activities.

Information on our carbon footprint and the reduction we have realized together with Kaufland Romania S.C.S.

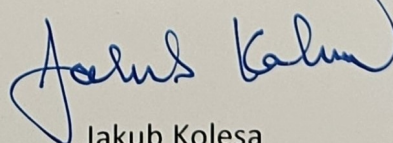

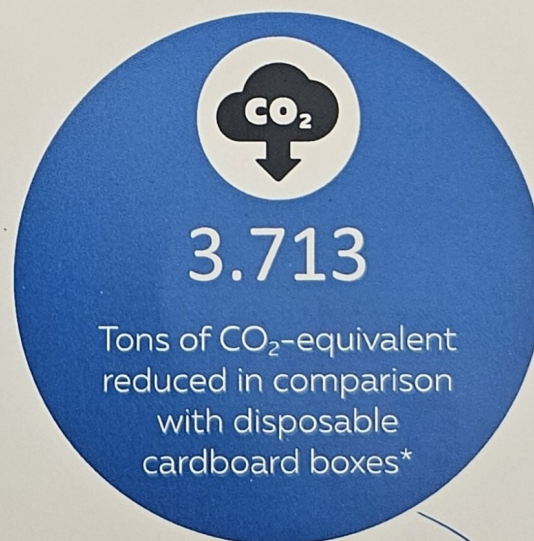

**10.990.266**

Rotations of  
reusable trays

**2.380**

Tons of CO<sub>2</sub>- equivalent  
emitted  
for the total amount  
of rotations

Jakub Kolesa  
Regional director CEE  
April 2025, Prague

\*These savings have been calculated with the Life Cycle Assessment (LCA) Calculator (2020) which is based on independent studies carried out by the University of Stuttgart (2017) and Fraunhofer Institute (2018) and commissioned by the Stiftung Initiative Mehrweg (SIM = Foundation for Reusable Systems). More information can be found at [www.stiftung-mehrweg.de](http://www.stiftung-mehrweg.de)
